

Dr. Cozette M. White

1ST AFRICAN AMERICAN WOMAN TO DEBUT 5 FINANCE BOOKS IN 1 DAY

American women's history has been full of pioneers paving the way and we're proud to add Dr. Cozette M. White to the list - history in the makings! America's #1 Advisory Accountant and Tax Strategist and best-selling author Dr. Cozette M. White (also known as Your Financial Physician® to her fans) is a pioneer Finance Expert. During Woman's History Month, Dr. White chose to make history by debuting 5 personal and business finance books, in which 3 of the 5 became bestsellers! This remarkable accomplishment sets her apart from her colleagues in the finance arena. Her mentor and coach, Dr. Will Moreland of Phoenix, AZ coined her "1st African American Woman to Debut 5 Finance Books in 1 Day." Dr. Cozette's unwavering passion to "change the bank accounts of women" inspired her to write the books.

Dr. White stands today as an acclaimed author, advisory accountant and tax expert and philanthropist. However, the road to financial success was not an easy one for her and she vowed to ensure that she would pave the way for other women to gain clarity and focus with their finances.

According to statistics, 89% of women small business owners make less than \$100K. And 4% make more than half a million dollars, with only 2% ever hitting the million dollar mark. Women in corporate America, on average, earn 80.5 cents for every dollar a man earns. It's time we change that!

Contrary to popular belief, your personal life doesn't have to suffer because nor does your business because you're a woman wearing many hats – wife, mother, daughter, sister, aunt, and friend. What if you knew the exact strategies and action steps to build a legacy?

Dr. White's book series range from personal to business finances to the woman seeking advice in corporate America. They are: 50 Money Mindset Quotes, How The FICO Do I Repair My Credit: Guide To Raising Your "Three Digit Number", Barriers & Bias: Take Control of Your Money, Business Formation: The Ultimate Guide to Forming an LLC, and The ABC's of Starting a Business: Business Guide For Navigating Through The Maze. Dr. White says, "I wanted to give women the resource tools to build a legacy. After all, every woman deserves to win big in life and business!"

All books will be available at Amazon.com. For more information, visit cozettewhite.com.
